Forest Ridge in Broken Arrow has been designated as one of America's 100 Best Master-Planned Communities for 2009 by *Where to Retire Magazine*.

During a nine-month selection process Forest Ridge was selected from several hundred candidates from across the country. This award places Forest Ridge among an elite group of developments that offer an active lifestyle and was the only development selected from Oklahoma.

Forest Ridge is a master-planned community offering a unique lifestyle with an innovative design that is well within your reach. Forest Ridge presents unmatched amenities in this area including an award winning public golf course, extensive greenbelts, 10+ miles of jogging trails, private community parks, catch & release fishing lakes, a swim & tennis center, a full service restaurant and Resident Only events.

"This is a great honor for the Forest Ridge development" said Joe Robson, President The Robson Companies. "For us to be selected from so many quality master-planned communities across America adds to the dedication our company has built over the last 20 years."

Forest Ridge began in 1989 and has expanded to over 1000 acres and 13 neighborhoods.
